EmmaRedor

Computer Science student

26 rue du 21 juillet 1954, Rennes, France
06 95 36 58 48
emma.redor@ens-rennes.fr

Compétences & Forces

Interpersonal

- Enthusiasm and empathy
- Tolerance to change and uncertainty

Ethics

- Reliability
- Sense of responsibility

Autonomy

- Proactivity
- Thirst for learning and understanding

Organization

- Prioritization and ranking
- Time management

creativity
a taste for teamwork
taking initiative
adaptability
dynamism
analytical skills

Computer languages

Eager to learn more about...

- *...neurosciences through the prism of computer science*
- *...reproducibility in neuro imaging (particularly in CS)*
- *...ethics in AI*

EDUCATION

2023 - ... **Master in Computer Science | ENS Rennes**

2020 - 2023 **Bachelor in Computer Science | Université Rennes**

2019 **Baccalauréat | S spe Earth & life sciences Lycée Assomption, Rennes**
Honors: Very Good (TB), European section (English)

EXPERIENCE

mid-May - mid-July 2023 **Internship | INRIA, Rennes**

- Internship in the EMPENN under Fanny Dégeilh's supervision
- Bibliographical work on various brain atlases for infants (0-5yo)
- Bibliographical work on the various MRI brain segmentation tools
- Testing of selected brain MRI segmentation programs

May - mid-July 2022 **Internship | INRIA, Rennes**

- Internship in the GENSCALE team under Claire Lemaitre's supervision
- Evaluate the contribution of a new sequencing technology (linked-reads) for t quantification of genomic variants, compared to other technologies (short anc long reads)
- Analyze whether the long-distance signal in these data can distinguish differe versions of the variants represented in a sequence graph
- Development in Python of a tool to detect structural variants (insertions and deletions) using linked reads

Languages

French (C2) ●●●●●●
English (C1) ●●●●●○
Spanish (A2) ●●●○○○

Interests & Activities
